

DAY 4

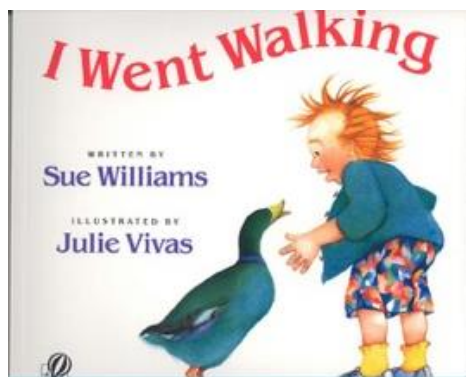

LESSON

THEME: Colors & Rainbows

DISCUSSION ?'S: How many blue things can you find around the house? Red? Yellow? Green? Orange? Pink? Purple?

BOOK:

I Went Walking
By Sue Williams

SCIENCE:

Will it sink or will it float?
Get a tub of water and grab a bunch of different materials. Create two columns on a piece of paper, label one Sink and the other Float. Test one item, did it sink or float? Put that item on the corresponding column! Continue with every item. Which column had more, sink or float?

LITERACY:

Q-tip letter tracing.
Write out the alphabet on a piece of paper! Have your child dip a q-tip into paint and trace each letter. You can also write letters on a chalk board and trace with water, or a white board and trace to erase!

MATH:

Use some Legos, stacking blocks, crayons, beads, whatever you have! Let's make a pattern.
Can you make an A-B-A-B pattern?
Can you make another one using different colors? How many different patterns can you make?
